The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,4,6-8,11 and,12 are rejected under 35 USC 102 (b) as being anticipated by Zumeris. Zumeris in figure 14A, 14B (see also column 13 lines 24-47) teaches a piezoelectric motor #172 that rotates a threaded output shaft #168 which is couple to a carrier #160 that is guided for linear movement along the axis of rotation of threaded shaft #168 by guided member #162. An object (lens for an optical reader) is contained in the area #164 of the carrier. A standard feedback servo loop including a position indicator #68 is shown in figure 5. Zumeris explicitly teaches that the voter can be operated in either a continuous or a stepping manner (see column 7, line 12-column 9, line 13).

Claims 5 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 2, 9, 14 and 15-19 are allowed.

Further cited of interest are: Ngol, Henderson (209) and Henderson (214).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
